

Idaho Fish & Wildlife Information System
 In cooperation with:
 U.S. Fish & Wildlife Service
 USDA APHIS Wildlife Services
 Montana Fish, Wildlife & Parks
 National Park Service

2008 Wolf Activity

Documented, Suspected and Reported Locations

2007-08 Known Locations *

- Documented Pack
- Documented Group (less than 4 animals)
- Terminated Group

2008 Estimated Locations **

- Documented Pack
- Documented Group (pair or group less than 4 animals)
- Suspected Pack
- Terminated Group

2008 Public Observations ***

- Multiple Wolves Observed
- Single Wolf Sighted
- Not Specified

* Tracking collar data and research locations collected and analyzed by Idaho Department of Fish and Game, the Nez Perce Tribe, Montana Department of Fish, Wildlife and Parks, Wildlife Services, the University of Montana Cooperative Wildlife Research Unit and the National Park Service. Pack locations are minimum convex polygons (MCP) of telemetry and research observations for collared wolves from 1/1/2007 - 12/31/2008 with outliers removed. For packs with only VHF collars 100% MCPs are used. Packs which included GPS locations are floating median 95% MCPs. If the pack did not have any observations in 2008 it is not included on this map. This map is provided for management purposes and should not be used for data analysis. Do not release these data to third parties without first contacting the Idaho Department of Fish and Game or the Nez Perce Tribe.

** Estimated Pack Activity determined by biologists from research locations, public observations and incidental observations from 1/1/2007 - 12/31/2008. These are displayed as 9.8 mile radius circles consistent with pack territories in Idaho.

*** Public Observations from 1/1/2008 - 12/31/2008 collected on the Idaho Fish and Game website and reviewed by staff biologists. Confirmed and possible observations are displayed.
